SUMMARY

Currently pursuing a degree in Computer Science, I am passionate about Front-End Development with proficiency in C++, Python, JavaScript, and React.js. Eager to tackle real-world challenges, I am also learning Node.js, Express.js, MongoDB, and AWS, while gaining experience with design tools like Canva and Figma. With intermediate skills in WordPress, I seek opportunities to contribute to meaningful projects and collaborate with forward-thinking professionals, continuously expanding my skill set to stay at the forefront of innovation.

PROJECTS

E-Commerce Site

Self Project

Developed a responsive E-commerce UI using React and Material-UI to enhance user experience. Utilized HTML5 and CSS3 to create visually appealing and functional web pages while implementing reusable components in React, improving both code efficiency and maintainability.

Facial Recognition System

Self Project

Developed a facial recognition system using OpenCV and CV2, enhancing security applications. Implemented a Tkinter-based GUI for user-friendly access to system files and camera operations. Utilized OpenCV algorithms for accurate and efficient facial detection and recognition, and integrated camera functionality to capture real-time facial data, improving system responsiveness.

Personal Portfolio Website

Self Project

(In Progress)

Currently developing a visually engaging and responsive portfolio site using HTML5, CSS3, JavaScript, and Tailwind CSS. Designing a clean, organized layout to showcase personal projects and skills, enhancing user experience. Implementing interactive features with React.js and Tailwind CSS to create a dynamic, user-friendly interface while ensuring mobile compatibility through responsive design techniques for accessibility across all devices.

EDUCATION

Qurtuba University | *Bachelors of Science in Computer Science*

November 2022 – Present

Qurtuba College | *F.sc Pre - Engineering*

Sept 2018 – June 2020

St; Helen High School | *Matriculation*

April 2016 – March 2018

EXPERIENCE

Hyper AI Solutions | *Internship Islamabad*

3/8/2024 - Present

- Gained valuable experience in designing with Canva and Figma, creating visually appealing and user-friendly interfaces.
- Built web applications using the MERN stack, focusing on delivering responsive and efficient solutions.
- Explored various libraries to expand my technical skill set, enhancing both my front-end and back-end development capabilities.
- Refined my development and design skills while contributing to impactful projects in a dynamic environment.
